<b>Program/Grant Administration</b>	<p>Individuals who have been dislocated are identifiable via the Unemployment Insurance claimant database as well as via the Alabama Joblink system. Using these resources along with local outreach via electronic and print media and via the internet, we will initiate a campaign focused on encouraging dislocated workers to come to the centers for assistance. We will also reach out to local business and industry to increase their awareness of the resources available to assist them in adding new hires to their workforce.</p> <p>Training services will primarily be On-the-Job Training placements but may also include Individual Training Accounts if such training better meets the goals of the individual dislocated worker. Career Center staff may also provide on an as needed basis, services which may include pre-placement assessments such as Work Keys testing, drug testing and job readiness activities. Training vouchers and/or OJT Contracts will be developed based on the policies and reimbursement rates in place in the county where the enrollment takes place.</p> <p>Program staff will be identified to implement OJT contracts for each center and will be charged with meeting representatives of existing industry in high wage and high growth sectors including healthcare, shipbuilding, manufacturing and construction. Our goal is to increase the awareness of the business community regarding the opportunity to hire and train individuals who have been dislocated from industries in the region as a result o</p>

<b>Number of sub-grantees / sub-recipients</b>	One - (Mobile Works, Inc.)
<b>Other Information</b>	The decision by the Governor's Office for Workforce Development to change the implementation strategy for this grant and have Mobile Works function as the primary Project Operator has delayed the implementation of this initiative but has provided our region with the opportunity to bring together workforce staff from across our area to develop strategies to best reach and serve the dislocated workers who are targeted by this project. As a result, Mobile Works is requesting that the grant implementation period be extended through June 30, 2012 to assure that we are able to fully utilize the funding that has been approved to serve the maximum number of individuals in this area.
